Eeady-made crowns The Use like the Davis, English tube teeth, Bonwill, of Pinless, , ., , Crowns and Foster crowns can be mounted upon roots in this way by grinding them to fit cap and occlusion; but, with the exception of the Davis, these crowns are not carried in the regular stock of the manufacturers, and their employment is therefore almost prohibited. When making a crown from either block body or a high-fusing porcelain, to be mounted upon a gold cap, it is important to make the molded or carved crown considerably longer than the desired finished crown. This must be done in order to provide the necessary amount of material at both the root and occlusal end, to facilitate fitting. Having prepared the model so that the cap and post can be easily removed and replaced, remove the post, allowing the cap to remain in its position upon the model; then take a long, thin instrument (thinner than the crown-post), place the point in the hole where the post was, and drill a hole through the plaster cast, taking care to make this hole a straight continuation of the original post hole. The purpose of this hole in the model...
