Although Medicare claims data constitute the most comprehensive Medicare Claims Data Do available information for Medicare beneficiaries who have received Not Always Capture outpatient therapy, they do not always capture the clinical diagnosis for Clinical Diagnoses or which beneficiaries receive therapy. As such, they are insufficient for Show Consistent Patterns identifying particular diseases and conditions that should be exempted That Would Justify Waiving from the caps. Patients conditions or diseases are expressed in claims Therapy Caps data through diagnosis codes, and the coding system allows providers to use nonspecific diagnosis codes that are unrelated to a specific clinical 23 condition or disease. A CMS-contracted analysis of 2002 Medicare 24 outpatient therapy claims data, for example, found generic codes, such as other physical therapy, to be among the most often used diagnosis codes on claim forms ( see table 1 ). Moreover, current Medicare guidelines for processing claims permit institutional providers, such as outpatient rehabilitation facilities and skilled nursing facilities, to submit services from all three...
