Reviews

This book is definitely not effortless to begin on looking at but quite entertaining to read. Better than never, though I am quite late in starting reading this one. I can just easily get a enjoyment of looking at a written ebook.

Brand New Book ***** Print on Demand *****.Excerpt from Sentences and Thinking: A Practice Book in Sentence Making Sentences and Thinking is a textbook for the first term of Freshman English. Although it could be used as a review of fundamentals at the end of the high school course, it is designed primarily for the college freshman, who can scarcely be said to have mastered fundamentals in composition, but who nevertheless tends to regard himself as sufficiently acquainted with unity, coherence, and emphasis. It is true that the large rhetorics are also designed for the college freshman; but too often they are obsessed with the sacred need of comprehensiveness, or adhere to the language and modes of thought of the old mechanical rhetoric. The authors of this little book, instead of seeking comprehensiveness, have sought absolute essentials; instead of following tradition blindly, have worked out a new approach to Freshman rhetoric the substance being old, of course, but the mode of presentation, it is hoped, fresh and attractive because it is philosophical in a simple way. When the freshman comes to college, he is prepared to exchange his excellent high school conviction that authority is the soundest basis of belief for the equally excellent college conviction that blind faith is the one unpardonable sin and independent inquiry into the nature of things the prerequisite to all progress. We have asked the freshman, not to master rules, but to think out the reasons behind the rules in terms of the psychology of the human mind.
