*This pdf is indeed gripping and interesting. It is definitely simplistic but shocks within the 50 percent of your book. Once you begin to read the book, it is extremely difficult to leave it before concluding.*

Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.THE ECONOMY: FIGURES DON T LIE, BUT, LIARS SHOW CAN FIGURE! Folks, as an extreme and neurotic self-made writer I don t expect most people to understand my views. To the shallow I may seem negative or maybe even a cold hearted uncaring hater, but nothing could be farther from the truth. In fact I believe I am sort of a savior in terms of helping this great nation survive the coming troubled times. My view on all of this great news involving the USA economy: Hog wash, hog wash, and more hog wash. I heard a guy on the radio say that the USA government is a parasite and when a parasite grows larger than it s host it kills it s host. I totally agree with the above statement, the USA government haven t got there yet, but is awful close. Our welfare state beast is fast destroying our job producing free enterprise economic engine. Every day the USA government grows larger as our profit driven job producing business host sector dwindles smaller. Never mind what the learned economist and egg heads tell you, I m telling you it is impossible for the USA economy to overall improve or be saved unless the evil 1938 socialist minimum wage law is repealed entirely. Man alone can t save a dying economy, the same as a doctor alone can t save a dying patient, but a true free floating free market place economy can and will save itself along with it s host nation if unshackled and set free. Our evil socialist 1938 minimum wage law ties up and restricts our free market place economy to the point..
