

Professional Issues in Information Technology (Second Edition)

By Frank Bott

BCS, The Chartered Institute for IT/Viva Books Private Limited, 2014. Softcover. Book Condition: New. 2nd edition. To be effective at a senior level, IT professionals need a broad understanding of the context in which they operate, as well as appropriate technical skills and experience. Relevant to small and large organisations, this book addresses the core issues faced by IT professionals, including intellectual property rights in software, computer misuse, codes of conduct, setting up a company and internet law. This new edition also covers the social and legal implications of the substantial changes to technology and legislation over recent years, for example cloud computing, the Digital Economy Act and the Equality Act. The book accompanies the BCS HEQ ?Diploma in IT? core module: Professional Issues in Information Systems Practice. ? Relevant to organisations of all sizes ? Discusses data protection, anti-discrimination and freedom of information ? Covers basic financial and management accounting Contents: Chapter 1: LAW AND GOVERNMENT ? What is the law? ? Criminal law and civil law ? Where does the law come from? ? The legislative process in the UK ? The legislative process in other countries ? The law across borders ? Further reading Chapter 2: THE...
