

Life Before Birth (Pack of 25)

Filesize: 1.18 MB

Reviews

An incredibly great book with perfect and lucid reasons. It really is written in straightforward words instead of confusing. I am just very easily could get a delight of reading through a written pdf.

(Curt Bogan)

LIFE BEFORE BIRTH (PACK OF 25)

CROSSWAY BOOKS, United States, 2007. Pamphlet. Book Condition: New. 137 x 89 mm. Language: English . Brand New Book. Conception: Life begins! Life begins at conception as a single, separate, living cell. Nothing new is added except oxygen and nutrition. Fertilization occurs when a sperm and ovum join to form a single cell, full of life and bearing the unique genetic imprint of a person who has never existed before. The DNA in the 46 chromosomes of that small cell contain full instructions about that new individual s sex, eye color, foot size, brain capacity, and other physical traits. 1 week: Implantation On about the sixth day, the growing baby attaches to the wall of the mother s uterus. That rich nutrient lining welcomes the tiny tenant, and soon the child is sending out the chemical signal that can be detected in a home pregnancy test. Before the second week is over, the cells of the child s body will have already begun segregating themselves into the various layers that will give rise to the brain, nervous system, skin, digestive system, muscles, bones, and circulatory system 3-4 weeks: A beating heart The baby s heart begins its first beats as early as 18 days after fertilization, often before the mother even suspects she is pregnant. Between the third and fourth weeks, the baby s head and spinal column become easily distinguishable, and arm buds appear. Legs will begin to appear days later. The umbilical cord forms, transporting oxygen and nutrients to the child. 6 weeks: Brain waves Fingers are forming, and the child s mouth and lips are apparent. The child begins his or her first movements. At six weeks, the baby has brain waves that can be measured with an electroencephalogram. 10-11 weeks: Organ systems in place The baby...
